Shaker Square enhances it's palette of dining experiences with SASA

Shaker Square will expand its multi-cultural palette of award-winning restaurants in October when Chef Scott Kim opens **SASA** in the location formerly occupied by Sushi on the Square. Kim - known for his Matsu Japanese Restaurant – has created a loyal following in the region for his careful selection of ingredients from Japan and across America. The menu will reflect Kim's mastery of Japanese cooking as well as other Asian cuisines.

SASA will feature *izakaya*(Japanese style tapas) and an Asian bistro. "We want to create a new energy around Japanese Cuisine. Izakaya is such a fun experience. It's a combination of great food, drink and atmosphere. We are looking forward to bringing this experience to such a special place like Shaker Square," explains Brenda Kim, Scott's wife and partner. "We're extremely excited to be joining Shaker Square".

SASA's HOURS

MONDAY-THURSDAY 5pm-10pm
FRIDAY & SATURDAY 5PM-MIDNIGHT
SUNDAY BRUNCH Noon-3PM, DINNER 5pm-10pm

SASA, which means bamboo and Matsu which means pine, are two of the major elements in Japanese art. Due to their close geographic proximity, the Kims will be closing Matsu in November.

SASA joins Shaker Square's award-winning Balaton Restaurant, fire food and drink, Luchita's Mexican Restaurant, Sergio's Saravá and Yours Truly. "Our goal to enhance the 'night and day' theme for Shaker Square is significantly advanced with SASA, Scott & Brenda Kim's unique interpretation of Japanese cuisine," shares the Coral Company President Peter L. Rubin, "If you enjoy superb food served in an elegant and warm environment, then you'll fall in love with SASA."

Shaker Square is owned and managed by The Coral Company, a retail and residential property development firm based in Cleveland, Ohio. The company focuses on urban redevelopment projects where mixed uses can be integrated to create a strong sense of neighborhood. Working in concert with top community leaders of first ring suburbs and urban communities, The Coral Company is able to creatively shape ways meet the growing demand for retail services and residential neighborhoods.
